raidboxes	https://raidboxes.io/	<p>you can reach us in live chat daily from 8 a.m. to 10 p.m. – including weekends and public holidays.</p> <p>Contact Page : https://raidboxes.io/company/-contact/</p>	<p>Raidboxes emerged from a web agency a few years ago. Thanks to this experience, we know what you need to make your business even more successful - freedom. Our daily mission as a WordPress hoster is therefore to have your back and make your WordPress hosting and the management of your projects as easy as possible.</p> <p>Top performance - Time is money - especially when it comes to conversion optimization. The faster your website loads, the better the user experience, the conversion rate and your SEO ranking. Our data shows: After a move to Raidboxes, websites run up to 4x faster - without additional optimization measures.</p> <p>Factory security - Less is more – this also applies to WordPress plugins. Because the more third-party plugins, the larger the attack surface on your website. That's why functions such as caching, daily backups and updates are already integrated on the server side. You can also activate SSL and other security features with just one click.</p> <p>Rapid development - Our dashboard saves you hours of work a month building and managing your websites. Test updates and new website designs risk-free in staging, clone new projects from backups or save them as templates for later. You transfer finished customer pages with just a few clicks and remain the admin.</p> <p>Green WordPress Hosting - Our WordPress hosting is climate positive. How it works? For every new website we host, we plant a tree together with Eden Reforestation Projects. We use 100% green electricity in our data centers and offices. We also support organizations such as Atmosfair and Greenspark.</p> <p>Personal support - Our support team is there for you every day from 8 a.m. to 10 p.m. in live chat or by e-mail - even on weekends and public holidays. Our aim is to help you with any questions within a few minutes. We are all the more pleased about the many positive reviews from our customers on Trusted Shops.</p> <p>Free move - Would you like to put our WordPress hosting through its paces? No problem! If you wish to move, we will move a copy of your website for you within two working days. Migration to our servers is free, secure and non-binding. Your live website stays online the whole time!</p>

veerohtech	www.veerohtech.net	<p>Open a ticket: https://manage.veerohtech.net/-submitticket.php?step=2&dep-tid=2</p>	<p>Professional 24x7x365 Support - All of our Managed WordPress plans come with professional 24x7x365 support.</p> <p>Free Migration Service - Whether it's WordPress, Drupal, Joomla or just CSS, HTML and PHP, we can migrate it. Once you've signed up for Managed WordPress hosting, simply open a migration ticket with us and we'll walk you through the process. No fees, no tricks. We're happy you're here and want to help make your transition seamless.</p> <p>100% Flash SSD Storage</p> <p>CloudLinux OS is specifically designed for hosting providers. It creates an environment that performs more like your own virtual server rather than the typical WordPress hosting you find with many other providers. CloudLinux protects your account inside of a "Lightweight Virtualized Environment" (LVE). This LVE partitions, allocates, and guarantees dedicated server resources (memory, CPU, disk IO, etc), for your websites.</p> <p>LiteSpeed Web Server CMS's like WordPress, Drupal and Joomla.</p> <p>Daily Account-wide Backups Some web hosting providers charge for backups. We provide 30 days of backups for all Shared, Reseller and WordPress hosting, to include sub-cPanel accounts, free of charge.</p> <p>CloudFlare is a CDN (content delivery network) that creates a proxy between your visitors and your web servers. This enables improved website performance and security with intelligent caching closest to your visitors, protection against denial-of-service attacks, abusive bots and more. VeeroTech is a CloudFlare Optimised Partner. This allows us to offer Railgun (a \$200/mo. value). CloudFlare Railgun proxies dynamic content while allowing changes to the website to appear instantly.</p> <p>30 Day Money Back Guarantee</p> <p>SpamExperts SPAM Filtering Malware, phishing attacks and other exploits predominantly come through email, opening you and your business up to enormous risk. Protect your domain with a free SpamExperts SPAM filtering account for one domain. Stop SPAM before it reaches your inbox!</p> <p>Free Let's Encrypt Certificates</p> <p>100% FREE SSL Certificates with just a few clicks! All Shared Hosting plans give you access to SSH, FTP, WP-cli, and the latest versions of PHP. We guarantee a 99.9% or better service uptime on our services or we'll pay you!</p>
